## PREPARING FOR THE HOLIDAYS!

Be proactive for the upcoming holiday season and make sure your oven is working properly. There's nothing worse than your oven shutting off when you are preparing a meal for your family and friends, leaving a lukewarm turkey on Thanksgiving day. Well maybe there is... Imagine 20 families with that same issue, at the same time, It might be black Friday before that turkey gets golden brown.

DeLuz maintenance recommends maybe baking some cookies in October if you haven't used your oven much this summer and detect any problems before the real cooking season!
