## Thanksgiving Turkey Trot

Need to burn some calories before you eat that big meal? Oceanside Turkey Trot is the way to go [osideturkeytrot.com/race-info/when-where/](http://osideturkeytrot.com/race-info/when-where/)

## It is Turkey Time

Did any of you ever cook a Turkey and did not know there are 2 cavities? Here is a recipe on Foodnetwork to share: Preheat the oven to 325°F. Pull the neck and giblets out of the cavity; ditch the liver and save the rest of the giblets for gravy. Dry the turkey with paper towels, then season inside and out with salt and pepper. Fill the turkey with aromatics like chopped onions, carrots, apples and herbs, then place breast-side up in a roasting pan and brush with melted butter. Tent with foil and roast for 2 hours (for a 10- to 12-pound turkey; add an extra 15 minutes per pound for larger birds). Remove the foil, baste with more melted butter and crank the oven to 425 degrees F. Roast for another hour or until the meat at the thigh registers 165 degrees F. Let rest while you make the gravy.

## Thanksgiving Recommendation

We recommend that you clean the oven before your Thanksgiving baking. If you don't use the oven regularly be sure to test it early in November so if there is an issue maintenance can take care of it.
